

B VISHNU SAI

Aspiring Software Developer | C++, Web Dev

+91 9880869432 | vishnusai0317@gmail.com | <https://www.linkedin.com/in/vishnusai0317>

Summary

Computer Science Engineering student with strong skills in software development, cloud integration, and data-driven applications. Experienced in building real-world projects, including a Lost & Found Management System and IoT-based alert systems. Proficient in C++, Python, Java, JavaScript, databases, and backend development. Known for strong problem-solving abilities, quick learning, and delivering efficient, scalable, and user-focused solutions.

Skills

Programming: C, C++, Python, SQL

Web Technologies: HTML, CSS, JavaScript, Node.js, Express

Databases: MySQL, MongoDB

Tools & Platforms: Git, VS Code, IntelliJ IDEA, IoT Development Kits

Core Skills: Data Structures, Networking Fundamentals, UI/UX Basics,

Software Development Life Cycle (SDLC)

Technical Strengths: Problem-Solving, OOPs, Debugging, Version Control, REST APIs, Cloud Basics

Professional Skills: Analytical Thinking, Problem Solving, Team Collaboration, Communication, Learning Agility

Projects

Lost & Found Web App | Node.js, Express, MongoDB, Cloudinary, Push Notifications

- Built a full-stack platform for reporting and claiming lost items with authentication, admin workflows, and real-time push notifications.
- Integrated Cloudinary for image uploads and MongoDB Atlas for scalable data storage.
- Developed features like smart match alerts, claim approval/rejection notifications, and advanced item filtering/search.

Early Warning System for Glacial Lake Outburst Floods | NodeMCU, Embedded C, Blynk, IoT Sensors

- Built an IoT-based early warning platform using NodeMCU (ESP8266) to monitor water levels, vibrations, temperature, and GPS data in real time.
- Developed embedded firmware in C to read multi-sensor inputs, process thresholds, and trigger immediate alerts during critical conditions.
- Integrated Blynk cloud dashboard for live monitoring and instant push notifications to remote users.
- Implemented multi-sensor calibration and threshold tuning, improving detection accuracy by 15%.

Education

Bachelor of Engineering (B.E.) – Computer Science Engineering

Rao Bahadur Y. Mahabaleswarappa Engineering College, Ballari

Nov 2022 - 2026

CGPA: 8.02 / 10

Awards & Certifications

- Certified in C Programming
- Workshop on IoT

Relevant Coursework

Data Structures, Object-Oriented Programming, Database Management Systems, Computer Networks, Software Engineering
