

B VISHNU SAI

Computer Science Engineer | Networking, Python & Backend Development

+91 9880869432 | vishnusai0317@gmail.com | <https://github.com/vishnusai00>

Summary

Computer Science Engineering graduate with strong foundations in Computer Networks, Data Structures, OOP, and Database Management Systems. Experienced in developing full-stack and cloud-based applications using C++, Python, JavaScript, and SQL. Strong analytical and troubleshooting skills with a keen interest in networking, infrastructure, and application delivery technologies.

Experience

Data Science Intern | Contriver

Bengaluru, Karnataka | Feb 2026 – May 2026

- Worked with Python, SQL, Data Analytics, and Data Visualization on real-world datasets.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) to identify trends and insights.
- Assisted in developing dashboards and analytical reports for business decision-making.
- Applied problem-solving and analytical techniques to support data-driven solutions.

Skills

Programming: C, C++, Python, SQL

Web Technologies: HTML, CSS, JavaScript, Node.js, Express. Databases: MySQL, MongoDB

Tools: Git, VS Code, IntelliJ IDEA

Core CS Fundamentals: Computer Networks, Data Structures & Algorithms, OOP, DBMS, SDLC

Development Skills: Debugging, Network Troubleshooting, REST APIs, Backend Development, Cloud Basics, Problem Solving, Team Collaboration

Projects

Early Warning System for Glacial Lake Outburst Floods | NodeMCU, Embedded C, Blynk, IoT Sensors

- Built an IoT-based early warning platform using NodeMCU (ESP8266) to monitor water levels, vibrations, temperature, and GPS data in real time.
- Developed embedded firmware in C to read multi-sensor inputs, process thresholds, and trigger immediate alerts during critical conditions.
- Integrated Blynk cloud dashboard for live monitoring and instant push notifications to remote users.
- Implemented multi-sensor calibration and threshold tuning, improving detection accuracy by 15%.

Lost & Found Web App | Node.js, Express, MongoDB, Cloudinary, Push Notification

- Built a full-stack platform for reporting and claiming lost items with authentication, admin workflows, and real-time push notifications.
- Configured cloud-based storage and backend services while understanding client-server communication, HTTP/HTTPS protocols, and API integrations.
- Integrated Cloudinary for image uploads and MongoDB Atlas for scalable data storage.
- Developed features like smart match alerts, claim approval/rejection notifications, and advanced item filtering/search.

Education

Bachelor of Engineering (B.E.) – Computer Science Engineering

Rao Bahadur Y. Mahabaleswarappa Engineering College, Ballari

Nov 2022 - 2026

CGPA: 8.33 / 10

Awards & Certifications

- Certified in C Programming
- Workshop on IoT

Relevant Coursework

Computer Networks, DSA, Object-Oriented Programming, Database Management Systems, Software Engineering
